REMUNERATION DISCLOSURE

AS AT 30 JUNE 2016

Updated Annually

INTRODUCTION

The following remuneration disclosures have been prepared for Australian Central Credit Union Limited, trading as People's Choice Credit Union (People's Choice), in accordance with APRA's remuneration disclosure requirements under prudential standard APS 330 – Public Disclosure (APS 330) and the Board Remuneration Policy (Remuneration Policy).

The prudential disclosures require that all Authorised Deposit-taking Institutions (ADIs) meet the minimum requirements for public disclosure of qualitative and quantitative information of their remuneration practices.

The quantitative information relates to senior managers and material risk takers employed by People's Choice during the financial year ended 30 June 2016. The qualitative remuneration disclosures are broader in scope and cover all individuals included in the Remuneration Policy, as outlined in Prudential Standard CPS 510 Governance (CPS 510).

The information reported is provided for regulatory disclosure purposes and is not comparable to accounting reporting or any other information disclosed elsewhere by People's Choice.

Senior Managers for the purpose of this disclosure include the Chief Executive Officer (CEO), the executive management team, and Responsible Persons (as per the Remuneration Policy). A 'Senior Manager' refers to each responsible person included in an ADI's Remuneration Policy under paragraph 59(a) of CPS 510. During the financial year ended 30 June 2016, the total number of employees within this group was 40. As at 30 June 2016, there were 28 employees within this group.

Material risk takers are defined as persons included in an ADI's Remuneration Policy under paragraph 59(c) of CPS 510 as all other persons for whom a significant portion of total remuneration is based on performance and whose activities, individually or collectively, may affect the financial soundness of the regulated institution. Based on this definition, the Board has assessed that for the purposes of this disclosure, a 'material risk-taker' will be any employee who is entitled to receive more than 40% of their total remuneration in performance or sales related incentives. During the financial year ended 30 June 2016, the total number of employees within this group was 64. As at 30 June 2016, there were 53 employees within this group.

QUALITATIVE DISCLOSURES

Remuneration Governance

The Board is responsible for remuneration governance. It has established the Corporate Governance Committee (the "Committee"). The Committee is the main body which oversees remuneration for People's Choice and its responsibilities include:

- Conducting regular reviews of, and making recommendations to the Board on the Remuneration Policy;
- Making annual recommendations to the Board on the remuneration of the CEO and direct reports of the CEO;
- Overseeing the remuneration of other persons whose activity may, in the Committee's opinion, affect the financial soundness of People's Choice, and any other person specified by APRA; and
- Making annual recommendation to the Board on the remuneration of any other categories of persons covered by the Remuneration Policy.

The roles and responsibilities of the Committee are set out in the "Corporate Governance Committee Terms of Reference" ("the Terms"). The Terms are reviewed by the Committee at least every 18 months, and reviewed and endorsed by the Board at least every three years.

The Terms provide that the Committee will comprise at least three non-executive directors appointed by the Board, including the Chair of the Board who will also chair the Committee. Members of the Committee are appointed annually by the Board.

The Committee is required to meet a minimum of three times during each financial year. During the financial year ended 30 June 2016, the Committee met seven times.

In line with paragraph (g) of Table 21 of APS 330, the fees paid to the Committee in total are set out below. Because members of the Committee sit on other People's Choice Board Committees and the Board itself, the fees quoted below include remuneration for holding those other positions.

Financial year ended 30 June 2016

Committee Members	3
Meetings	7
Total Fees	\$314,609

The Committee has available to it unfettered access to internal risk and financial control personnel and other relevant employees. The Committee is also empowered to consult independent external advisers where it is deemed necessary to assist in the carrying out of its duties. Where the Committee chooses to seek advice from external advisers the Committee can do this independently of, and without involving, management of People's Choice.

During the financial year ended 30 June 2016, the Committee engaged AON Hewitt, Financial Institutions Remuneration Group Inc and internal remuneration specialists to advise on market remuneration data and market practice.

To assist with the management of People's Choice's remuneration processes, the Committee has approved the Remuneration Policy which sets out the design and structure of the remuneration processes for People's Choice. The Committee is required to review the Remuneration Policy at least annually and recommend to the Board any amendments. The Committee last reviewed the Remuneration Policy in December 2015 and no material amendments were made as a result of this review.

Remuneration Policy and Framework

The Remuneration Policy applies to People's Choice and its controlled entities. The Remuneration Policy provides a remuneration structure comprising base salary and short term incentive (STI) to reward employees covered by the policy, dependent on the level of responsibility.

The Remuneration Policy:

- Outlines the general principles of remuneration for employees covered by the policy;
- Outlines the general principles for the setting of performance goals for these employees; and
- Explains the relationship between the Remuneration Policy and other People's Choice management policies relating to remuneration and performance goals.

The remuneration structure in place for employees is consistent with People's Choice's Remuneration Policy and is based on a total remuneration approach comprising an appropriate mix of fixed (salary and benefits) and variable remuneration.

The total remuneration opportunity for all employees is reviewed on an annual basis. Fixed remuneration is, on average, targeted at the market median however, in cases where People's Choice is actively pursuing strategic talent or the market is particularly competitive, remuneration may be higher than the median. The total remuneration mix for an individual varies depending on the level of the role within the organisation.

Remuneration Components

Remuneration arrangements for employees of People's Choice may encompass the following components:

- Fixed remuneration – salary based on role size and market value.
- Variable remuneration – performance based, at risk bonus.
- The table below provides an overview of the remuneration components applicable to employees of People's Choice.

The table below provides an overview of the remuneration components applicable to employees of People's Choice.

Item	Structure, Performance and Risk Alignment
Fixed remuneration	<p>Fixed remuneration is comprised of base salary, fees, any FBT, superannuation and any employee salary sacrificed benefits.</p> <p>Fixed remuneration is commensurate with the size and complexity of the role, individual responsibilities, individual performance, experience and skills. Fixed remuneration is typically reviewed annually, as part of the annual remuneration review. This review takes into account the employee's individual performance against People's Choice's Corporate KPIs and market relativity.</p> <p>Superannuation contributions are paid according to statutory requirements.</p>
Variable Remuneration	<p>Employees have opportunities to participate in various variable remuneration arrangements. Discretionary variable remuneration is dependent on the achievement of both financial and non-financial objectives as approved by the Board.</p> <p>All employees covered by the Remuneration Policy are eligible to receive an annual bonus to reflect the extent to which annual objectives have been met and individual performance.</p> <p>The annual bonus earned by an individual is dependent on the achievement of the strategic Key Performance Indicators and objectives of People's Choice, the individual's business unit, and individual's performance which is reviewed and rated annually.</p> <p>The determination of bonus remuneration is based on various performance metrics i.e. financial and non-financial metrics. Financial metrics are based on profitability. Non-financial metrics include compliance with risk management frameworks, management of staff and adherence to corporate values.</p> <p>In determining the payout under any component of variable pay, People's Choice adopts, as policy, the use of set targets to determine the extent to which overall organisation performance has been achieved as well as individual performance. The Committee retains discretion to recommend to the Board variations to the bonus payment to reflect the achievement of performance metrics.</p>

Remuneration and Risk Management

The Remuneration Policy forms part of People's Choice's Risk Management Framework.

The Committee ensures that the Remuneration Policy encourages behavior that supports People's Choice's long-term financial soundness, growth and success within an appropriate risk management framework.

Performance based components of remuneration are designed to align remuneration with prudent risk taking and incorporate adjustments to the extent that it is practical and cost effective to do so, relative to the amount of the at risk component, to reflect:

- The outcomes of business activities;
- The risks related to the business activities taking account, where relevant, of the costs of the associated capital; and
- The time necessary for the outcomes of those business activities to be reliably measured.

Failure to meet requirements in relation to compliance and risk conduct results in the forfeiture or reduction of variable remuneration payable to the employee.

Further, the Remuneration Policy provides that after careful consideration of the ongoing financial soundness of People's Choice, or in response to significant unexpected or unintended consequences, the Committee may recommend to the Board that the annual performance bonus to be received by employees covered under the Remuneration Policy be reduced, including to zero if appropriate, with the same reduction rate applying to all or to a selected group.

The table below provides the key risks and measures which are considered to ensure compliance with legislative standards and alignment with People's Choice's risk appetite.

Risk	Measures	Review of the measures
Credit Risk	Loan portfolio quality, management of delinquent accounts.	These measures are produced and reviewed against board policy limits on at least a monthly basis.
Liquidity Risk	Minimum liquidity holding ratio, capital adequacy ratio, wholesale funding as a percentage of total funding.	
Market Risk	Earnings at risk, market value sensitivity, value at risk.	
Operational Risk	Internal and external audits, disruption to business continuity, IT security, internal and external fraud events, member service breakdowns, compliance with legislative requirements, staff turnover and work health and safety measures.

Performance and Reward

Variable remuneration payments under People's Choice's variable remuneration plans are linked to several performance measures including strong individual performance and the performance of People's Choice (through financial and non-financial measures). Each of these is outlined below:

Component	Input into variable performance plans
<p>People's Choice's performance against Corporate KPIs</p>	<p>People's Choice's performance is assessed against both financial and non-financial measures which support People's Choice's short-term performance and long-term strategy. For executive employees, these measures are weighted and scored to give an overall performance score.</p> <p>Financial measures include revenue, return on equity, operating costs and profit before tax.</p> <p>Non-financial measures include member growth, product penetration, brand salience, staff turnover, staff engagement and other measures relating to People's Choice's values and behaviours.</p> <p>An increase in People's Choice's performance results does not automatically increase the variable remuneration pool, however poor financial results will impact on the amount of variable remuneration payable to employees by a reduction of up to 50% subject to the outcome of the annual profit approved by the Board.</p> <p>Employees in the "material risk taker" category are not subject to weighting against company performance. These employees are remunerated on the basis of individual results as well as non-financial measures including compliance, audit results, quality of advice and values and performance behaviours.</p>
<p>Employee's performance against individual KPIs</p>	<p>All employees are required to complete a performance review against individual performance objectives that are set and agreed at the start of the relevant performance year. Objectives are set using a top-down approach to ensure individual objectives align with People's Choice's strategy.</p> <p>For the 2015/16 performance year, individual objectives were aligned to the following key performance areas:</p> <ul style="list-style-type: none"> - Vision & Members - Financial - Community - Values & Staff <p>Assessment against these objectives is completed at the end of the performance year and employees receive a performance rating of either "meets expectations" or "below expectations". This rating directly feeds into the annual review of fixed remuneration for the employee.</p> <p>An employee's level of individual performance directly affects their potential variable remuneration outcome. Higher levels of individual performance result in higher levels of variable remuneration whilst poor individual performance excludes an employee from any variable remuneration payment.</p> <p>Employees are also assessed against People's Choice's corporate values and behaviours. Employees are assessed against four values with the rating outcome serving as an input into remuneration outcomes.</p> <p>Individual performance requirements for executive level employees are set by the Chief Executive and endorsed by the Committee.</p>

Deferral and Clawback

People's Choice may utilise deferred bonuses and/or clawback as a risk management approach where it is determined appropriate. Any deferred bonus or clawback for positions covered by the Remuneration Policy are recommended by the Chief Executive and approved by the Committee.

Employees covered by the Remuneration Policy may be subject to clawback provisions as outlined in the relevant remuneration terms for the position. Such provisions may include, but are not limited to, the right of People's Choice to suspend or cancel payments in circumstances where:

- Eligibility requirements have not been met;
- The employee is subject to formal disciplinary action; and/or
- The employee has advice quality, compliance, legislative, values-based behavioural or performance issues.

Risk and Financial Control Personnel

Risk and financial control personnel (as defined in paragraph 59(b) of CPS 510) are employed in centralised functions across People's Choice. Remuneration outcomes for these individuals are based on the performance of People's Choice and their individual performance against KPIs.

People's Choice takes control measures to ensure that remuneration for risk and financial control personnel are remunerated independently of the business units they oversee as outlined below:

- All components of remuneration for risk and financial control personnel are documented in accordance with remuneration policies and procedures and require the following levels of approval and disclosure:
 - Fixed components – requires approval by the CEO and endorsement by the Committee and the Board;
 - Variable components – require approval by the CEO and are reported to the Committee.
